

Notice to Mariners

No 29(T) of 2020

Port of Southampton - Grab Surveys - 2020-2021

Notice is hereby given that the 12.5m catamaran research vessel **NOCTILUCA** will take grab samples from the seabed throughout the River Test and Southampton Water in any of the approximate positions indicated. This is a long-term project to monitor invasive species and mariners may expect to see **NOCTILUCA** periodically (approx. once a month) throughout 2020 and 2021. She will operate outside the navigational channels and notify Southampton VTS when deployed. **NOCTILUCA** will monitor VHF 12 throughout.
